2) SERVICE LEVEL AGREEMENT FOR TECHNICAL GOLD SUPPORT

Response Time	8 x 5 x 4 (4 hours, Mon - Fri, 09:00 to 17:00, CET/CEST)
---------------	--

The first component of the response time means that the business hours are 8 hours, from 09:00 to 17:00.

The second component means that the business hours are 5 days per week, from Monday to Friday (except on German public holidays). The third component is the response time of 4 hours.

The response time starts when we receive your support request during business hours. If we receive your support request outside business hours, the response time begins at the start of business hours on the next working day.

If your support request reaches us on a Monday at 10:00, for example, we must respond by 14:00 on the same working day at the latest. If your support request reaches us, for example, on a Tuesday at 2:00, we must respond no later than 13:00 on the same working day (because the response time in this case begins at the start of business hours at 9:00, CET/CEST).

Ideally, our trained support staff will already provide a solution to your problem during the response time. However, a response can also mean a simple feedback from our support team.

2) SERVICE LEVEL AGREEMENT FOR TECHNICAL PLATINUM SUPPORT

The response time begins with reporting the incident by telephone (24x7).

Ideally, our trained support staff will already provide a solution to your problem during the response time. However, a response can also mean a simple feedback from our support team.
